JOURNAL OF PHARMACOKINETICS AND BIOPHARMACEUTICS

Volume 10, 1982

A journal devoted to illustrating the importance of pharmacokinetic and biopharmaceutical applications in the understanding of drug action, design, therapy, and evaluation. Experimental and theoretical papers deal with kinetics of drug disposition; clinical pharmacokinetics; time course of pharmacological response; factors affecting formation and disposition of drug metabolites; studies in drug release from dosage forms; dosage form developments and their evaluation in animals and man; bioavailability studies—*in vitro* and *in vivo* correlations; and application of computers to pharmacokinetic analysis. All papers show some correlation with data describing the time course of drug disposition or action, or both, in animals and man.

FOUNDING EDITOR (1973–1981)
Sidney Riegelman

EDITORS
Leslie Z. Benet
Professor of Pharmacy and Pharmaceutical Chemistry, School of Pharmacy, University of California, San Francisco, California

Malcolm Rowland
Professor of Pharmacy, Department of Pharmacy, The University, Manchester, Manchester, England

ASSOCIATE EDITOR
Svein Øie
Associate Professor of Pharmacy and Pharmaceutical Chemistry, School of Pharmacy, University of California, San Francisco, California

PHARMACOMETRIC SECTION EDITOR
Lewis B. Sheiner
Professor of Laboratory Medicine and Medicine, School of Medicine, University of California, San Francisco, California

CONSULTING EDITORS
E. R. Garrett, University of Florida, Gainesville, Florida
